About Raxa

Raxa Security Services Ltd., has been one of the pioneers in the Indian Private Security Industry in providing Integrated Security Services for the past 13 years. Raxa provides security and safety services to all GMR Group Companies which include Airports, Thermal Power Plants, SEZs and other urban infrastructure assets. Besides the GMR Group, Raxa provided integrated security solutions to several other premier clients such as Kia Motors, TCS, AstraZeneca, Bosch, Biocon, Zuari, Pathways School, GAR, Sudh Plus and others.

Raxa also provides Event Security and Executive Protection Services. During last year it provided security services to important events like the IPL matches, Airtel – Hyderabad and Tata Steel – Kolkata marathon runs and the Sunburn DJ Snake performances at Delhi and Hyderabad.

Raxa's Technical Division has very high capability in providing integrated technical security and fire safety solutions. It has designed and commissioned these solutions for government establishments, PSUs and other clients. Raxa has now established a full fledged Fire Division with capability to install, maintain and operate fire systems and also impart high level training in various aspects of fire safety.

Our Vision

To be a leader in the safety and security industry in thought and action.

Our Mission

- To provide world class safety and security to industrial and business establishments.
- Provide secure and safe industrial environment to facilitate economic growth by developing highly trained personnel and supporting them with the most advanced equipment and technologies.
- Stay committed to the highest standards of excellence. Maintain high ethical standards, honesty and integrity. Respect and encourage individual ability and creativity.

Raxa Academy

Raxa has a State-of-the-Art Academy, spread over 100 acres of land located on Bengaluru – Hyderabad National Highway (NH-44), at a distance of about 80 KM from Bengaluru International Airport.

The Academy has faculty/trainers drawn from various forces like Army, CISF and Paramilitary and is headed by a highly competent ex-armed forces officer having rich experience in training.

The trainees are well trained in Physical Drills / Exercises, Unarmed Combat skills (UAC), First Aid, Fire Safety, Disaster Management, Industrial Safety, Airport Rescue, Fire Fighting and Security, handling of Technical equipment, professional conduct, use of computers, etc. Besides a 45 – days basic security guard training, Raxa Academy conducts several other specialized Safety & Security Training courses.

Raxa Academy has a capacity to train about 500 trainees at a time. There are class rooms with latest audio visual aids, parade & outdoor training grounds with obstacle courses, sports facilities, barrack accommodation, large dining hall, power back up with generator etc.

Raxa Academy has now transformed itself into a "Centre for Higher Learning in Security & Safety" and conducts several short term thematic courses on various aspects of Security & Safety. It also conducts specialized long term courses on Fire Safety & Security.

Accreditations & Affiliations

ISO 18788:2015: Raxa has been certified for ISO 18788-2015, the standard for Security Operation Management System, which was enacted only in 2015. Raxa is probably the first organization in India and definitely one among the few, not only in India but world over, to get this certification.

ISO 9001: 2015: Raxa upgraded its quality Certification from ISO 9001-2008 to ISO 9001-2015

ISO 29993:2017: Raxa Academy has been certified for ISO 29993-2017, the standard for learning services outside formal education.

Raxa is affiliated to **Fire and Safety Forum (Accredited to American National Standard Institute, ANSI and is also a member of Quality Council of India and NITI Aayog).**

Raxa is also member of **Fire and Security Association of India, Bangalore Chapter.**

Raxa Academy is the recipient of the following awards from SSSDC – Security Sector Skill Development Council:

- ✓ Outstanding Performance in conduct of Training
- ✓ Model Training Centre
- ✓ Best Training Centre (South)

Raxa Fire Division

Raxa has established a dedicated Fire Division to provide all fire related services in an integrated manner. It has the following capabilities related to fire safety.

Operational Capability:

- All Raxa personnel are trained in fire & safety as part of their basic training.
- Most of the officers in Raxa are drawn from CISF and Armed Forces. Several of them have specialized credentials in fire safety, having undergone long term courses in the subject.
- Raxa is currently providing fire support services to all thermal power plants of the GMR Group. We have extended our services to Kia Motors, the South Korean automaker, having its manufacturing facility in Anantapur district of Andhra Pradesh and some other customers.
- Raxa takes care of fire safety on the landside of all GMR Airports in India.
- We have capability of conducting fire audits and various other consultancy services related to fire safety.

Technical Capability:

- The Technical Division of Raxa has the capability to design and install sophisticated fire system comprising both fire detection and fire suppression systems on a standalone basis or as part of the overall building management system.
- Raxa can provide the entire gamut of fire safety equipment and take care of their maintenance.
- Raxa develops security solutions with optimum mix of manpower & technology, also conducts Technical Security audits.
